QUIZ

LABORATORY SAFETY SERIES: Preventing Contamination

Name: ___________________________  Date: ________________

1. True or False... Product labels are the best source of information about the hazards of a specific material?
   ___ True
   ___ False

2. Which of the following are considered major "routes of entry" for chemical exposure?
   ___ Inhalation.
   ___ Eye contact.
   ___ Ingestion.
   ___ All of the above.

3. Which of the following should be used to help prevent/control contamination?
   ___ Engineering controls.
   ___ Safe work practices.
   ___ Personal protective equipment.
   ___ All of the above.

4. It is recommended that gloves be changed as soon as they become wet... or after how many hours of use, regardless of their condition?
   ___ One hour.
   ___ Two hours.
   ___ Three hours.
   ___ Four hours.

5. Which of the following engineering controls can be used to protect against contamination?
   ___ Splash boards.
   ___ Exhaust hoods.
   ___ Blast shields.
   ___ All of the above.

6. True or False... Safety eyewear is a type of personal protective equipment that is seldom worn in the lab?
   ___ True
   ___ False
1. True or False... Product labels are the best source of information about the hazards of a specific material?
   - True
   - X False

2. Which of the following are considered major "routes of entry" for chemical exposure?
   - Inhalation.
   - Eye contact.
   - Ingestion.
   - X All of the above.

3. Which of the following should be used to help prevent/control contamination?
   - Engineering controls.
   - Safe work practices.
   - Personal protective equipment.
   - X All of the above.

4. It is recommended that gloves be changed as soon as they become wet... or after how many hours of use, regardless of their condition?
   - One hour.
   - X Two hours.
   - Three hours.
   - Four hours.

5. Which of the following engineering controls can be used to protect against contamination?
   - Splash boards.
   - Exhaust hoods.
   - Blast shields.
   - X All of the above.

6. True or False... Safety eyewear is a type of personal protective equipment that is seldom worn in the lab?
   - True
   - X False
